MEETINGS

1. Tuesday, September 17th, 2013

Ken Pugh is a busy man who has taken photos since 1970 but only recently of **birds**. He delighted us with his slides and informal chatty talk. He has an on-going course available to all!

Bears, bears, bears- we saw lots of Grizzlies – mums & cubs - at **Likely Lake** and the **Khutze-mateen**

John Gordon showed his amazing slides (and included some photography tips.)

FALL FIELD TRIPS

1. **Monday, Sept. 9th - Hick's Lake**

According to our coordinator Fernando, it was a fine day and the 6 participants had a "heck of a good time!"

2. **Wednesday, Oct. 9th - Skagit**

7 of us joined Langley F. Nats.

A rough road, so leader Al Grass turned back and led us to Cheam Lake instead.

Al and Paulina check the Big Leaf Maple fungi.

3. **Saturday, Oct. 19th - Reifel Bird Sanctuary**

Six members sighted 45 bird species on a chilly day. The highlight was a peregrine falcon which after a final dive, got his prize – a shore bird that was likely a godwit.
